

*Better Feed . . . Better Fish*

# AquaSea

## **Diet for Marine Fish**

**COREY AquaSea** is a diet for emerging marine fish. It is a high protein, energy balanced ration formulated to provide optimal levels of the each amino acid and balanced to provide optimized levels of digestible energy.

High quality fish based ingredients are used in **AquaSea** to provide high digestibility in the short digestive tracts of marine fish. **AquaSea** includes an enhanced vitamin and mineral package to ensure all micronutrients are available for maximum growth and low FCR's.

**AquaSea** has been formulated using the latest information and research on marine fish in North America and Europe.
