

Better Feed . . . Better Fish

Vigor Floating Feed

for Trout, Charr and Koi

Vigor Floating Feed has been improved to a higher energy ration (33% higher fat than our old diet) with an emphasis on improved water quality and increased pigmentation. The higher energy levels result in increased digestibility, faster growth and less waste.

Corey Feed Mills is SQF certified, using the same food safety protocols that human food. For those selling into the Kosher market, Corey is a bloodmeal and pork free facility.

PRODUCT CHARACTERISTICS
